

## How to Connect to Goucher Wireless on Mac OS 10.5+ (Leopard)

Click the AirPort icon located in the top right corner of the screen. A drop down menu will appear. Select **goucher**.

Type your username and password in the respective fields and click **OK**.

Click **Continue** when the **Verify Certificate** window appears.

You may be prompted to enter your credentials again. If so, type in your Goucher username and password in the respected fields and click **OK**.

The image shows a Mac OS X '802.1X Authentication' dialog box. It features a purple circular icon with a white 'X' on the left. The title '802.1X Authentication' is at the top right. Below the title, there are two text input fields: 'User Name:' containing 'tstudent' and 'Password:' containing a series of dots. Below the password field is a checkbox labeled 'Only use this password once'. At the bottom right are two buttons: 'Cancel' and 'OK'.

Click the AirPort icon in the upper right corner to reveal the drop down menu. Make sure that **goucher** is checked. If so, launch Safari or Firefox to browse the Internet. If it is not checked, please call the Help Desk (410-337-6322) for assistance.

🔊 As soon as you connect to the network, launch your Internet browser and you will be prompted to register your computer through Campus Manager. Please follow the directions on the screen to complete the registration process. For more information on Campus Manager, please visit the **Campus Manager FAQ** page at [www.goucher.edu/x2907.xml](http://www.goucher.edu/x2907.xml).
