

VAN METER G07

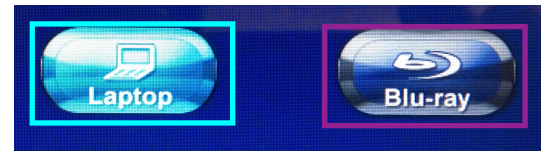

Powering on Projection System

- On the touch-panel tap the **POWER** button. The projector will power on within 60 seconds.

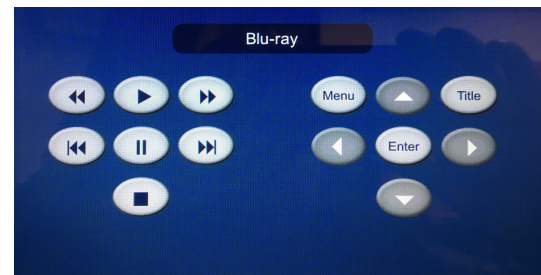

Selecting Laptop

- On the touch-panel tap the **LAPTOP** button.
- Connect the provided HDMI cable to your laptops HDMI port and then connect the other end to the HDMI wall-plate. **It is located on the right side of the black cabinet on the wall facing the seats.**

Selecting Blu-ray Player

- On the touch-panel tap the **BLU-RAY** button. The Blu-ray player is located in the black cabinet above the touch-panel. Press the eject button located on the players upper right hand corner and load the disc.
- **Use the controls on the touch-panel to navigate Blu-ray player functions.**

Display Mute

- To turn off the display temporarily, tap the mute button on the left of side the touch-panel. **There is a 5-6 second delay before you can un-mute the display.**

Adjusting Volume

- On the right side of the touch-panel tap the up button to increase volume and tap the down button to decrease volume. Tap the mute button to mute audio entirely.

Powering down Projection System

- After use **PLEASE POWER DOWN** the projection system by taping the **SYSTEM OFF** button in the lower right hand corner.

**Be Green. Conserve Power & Projector Lamps.
Power off When Not in Use!**
